

B1
CANCELED
claim

17. (New) The medium of claim 16, wherein said control information is configured to include one or more audio entries for accessing the audio data relating to said at least one audio stream.

D1

18. (New) The medium of claim 17, wherein said control information includes number information indicating a number of said one or more audio entries.

19. (New) The medium of claim 17, wherein said control information includes stream number information corresponding to said audio stream.

20. (New) The medium of claim 17, wherein said control information includes start address information corresponding to said audio stream.

21. (New) A recording apparatus configured to perform information recording on the medium of claim 16.

22. (New) A reproducing apparatus configured to perform an information reproduction from the medium of claim 16.

23. (New) A recording method configured to perform information recording on the medium of claim 16.

24. (New) A reproducing method configured to perform an information reproduction from the medium of claim 16.

REMARKS

Favorable reconsideration of this application in light of the above amendment and in light of the following discussion is respectfully requested.

Claim 1 is presently active in the case. In this amendment, claim 1 has been cancelled, and Claims 16-24 added without what is believed to be the introduction of new matter. Claims 16-24 added herein were canceled in a co-pending application having serial number 09/916,586, filed on July 30, 2001.
